

BlueLife™
PURITY UNCOMPROMISED

Water you can **TRUST TOTALLY**

Water Purifier with Digital RO™ technology,
that you can Trust Totally!

Presenting

DIGITAL RO™
WATER PURIFIER
Sapphire

- 💧 Innovative, unique and highly advanced water purifier
- 💧 Digital RO™ technology ensures optimum quality of purified water.
- 💧 Removes dissolved impurities like Rust, Pesticides, Arsenic, Fluoride, Lead, Heavy Metals, Bacteria and Viruses.
- 💧 Delivers pure, hygienic and tastiest drinking water with preserved essential natural minerals.
- 💧 Ideal for banks, offices, business premises etc.

*Design & Technology Patented

Key Features

- First of its kind
- Digital RO™ technology ensures maximum life of the purifier and delivers purest water
- LED indications with Power ON, Purification ON, Tank Full, No Inlet Water and Filter Change
- Pressure gauges to indicate the pressure at the inlet of RO Element
- Attractive floor standing design with wheels and also provision for wall mounting
- Purification by Polypropylene Sediment Filter, Granular Activated Pre-Carbon Filter, Activated Carbon Block Filter, followed by Ultra Violet (UV) Sterilisation
- NSF/ANSI Standard 58 listed, Dow™ FilmTec™ RO Membrane for ultimate filtration/ equal standards of RO element
- Removes dissolved impurities like Rust, Pesticides, Arsenic, Fluoride, Lead, Heavy Metals etc.
- Removes Bacteria and Viruses
- Emerald 25 liters per hour, Sapphire 50 liters per hour purification capacity
- Fully Automatic
- Invisible inlet and reject water connections for enhanced aesthetics
- Robust stainless steel structure with powder coated aluminium sheet metal enclosure
- Outlet connection for external storage tank

Digital RO™ Technology

Elegant Wall Mounting Design

Floor Standing with wheels

Two Pressure Guages

Technical Specifications

Model	Sapphire	Emerald
Purification Capacity	50 liters/hour	25 liters/hour
Max. Duty Cycle	250 liters/day	125 liters/day
Storage Tank Capacity	Storage Tank not included, Preferred Installation with storage water coolers	
Filter Cartridges	20" Polypropylene Sediment, Granular Activated Carbon, Activated Carbon Block	
RO Elements	1812-75 GPD (4 Nos)	1812-75 GPD (2 Nos)
UV Lamp	11.00 Watt	
Inlet Water Pressure (Min)	0.3 kg/cm ²	
Power Supply	24V DC, 6 Amps	24V DC, 4 Amps
Input Voltage	90-300V AC, 50Hz	
Pressure Gauge	2", 0-300 PSI, 2 Nos.	2", 0-300 PSI, 1 Nos.
Dimensions	W 475 x H 700 x D 310 (mm)	

**Under test conditions

Note: Not recommended for installation at above 2000ppm of feed water.

Due to continuous developments, product specifications may change without notice.
