

THE GUARANTEE OF 100% PURE AND HYGIENIC WATER

Unique water purifier with
 Digital RO™ technology and detachable
 stainless steel storage tank

Presenting

- Innovative, unique and highly advanced water purifier
- Digital RO™ technology ensures optimum quality of purified water.
- Removes dissolved impurities like Rust, Pesticides, Arsenic, Fluoride, Lead, Heavy Metals, Bacteria and Viruses.
- Delivers pure, hygienic and tastiest drinking water with preserved essential natural minerals.

Toll-free: 1800 599 1234

Key Features

- Unique and innovative water purifier with detachable stainless steel storage tank
- Digital RO™ technology ensures maximum life of the purifier and delivers purest water
- LED indications with Power ON, Purification ON, Tank Full, No Inlet Water and Filter Change
- Elegant wall-mounted design best suitable for domestic applications
- Purification by Polypropylene Sediment Filter, Silver Impregnated Granular Activated Pre-Carbon Filter, Silver Impregnated Fine Granular Activated Post-Carbon Filter followed by Ultra Violet (UV) Sterilisation
- NSF/ANSI Standard 58 listed, Dow™ FilmTec™ RO Membrane for ultimate filtration/Equivalent
- Removes dissolved impurities like Rust, Pesticides, Arsenic, Fluoride, Lead, Heavy Metals etc.
- RoHS-compliant and durable faucet to draw purified water from the storage tank
- Removes Bacteria and Virus
- 15 liters per hour purification capacity
- Fully automatic
- 6 liters of storage capacity makes purified water available on demand even in the absence of electricity and water supply
- Invisible inlet and reject water connections for enhanced aesthetics

Wall Mounted Design

Digital RO™ Technology

Detachable Tank

Stainless Steel Storage Tank

Technical Specifications

Model	BlueLife™ – TulipsRED
Filter Cartridges	Polypropylene Sediment Filter, Silver Impregnated Granular Activated Pre-Carbon Filter, Silver Impregnated Fine Granular Activated Post-Carbon Filter
RO Membrane	Dow™ FilmTec™ BW60-1812-75/Equivalent
UV Lamp	11 Watts
Purification Capacity	15 Liters/Hour*
Storage Tank Capacity	6 Liters, Stainless Steel
Minimum Inlet Water Pressure	0.3 kg/cm ²
Power Supply	24VDC, 2.5Amps.
Input Voltage	90 - 300V AC, 50Hz
Average Duty Cycle	2000 Liters/Month Maximum
Dimensions	W 380 x H 470 x D 260 (mm)

**Under test conditions

Note: Not recommended for installation at above 2000ppm of feed water.

Due to continuous developments, product specifications may change without notice.
